CAT for ENVI 5.3 and 5.4 update Note

Update date: 6/30/2017

New features

1. Updated CRISM customized map projection definitions in CAT for ENVI 5.3 and 5.4;
2. Improved CAT installation instruction for easier set-up.

Bugs fixed

3. With multiple views, if one view is blank, error may pop up when using CAT functions;
4. For map projections, if the related DDR is already open, an error shows when doing the map projection;
